MARQUISE

beautiful textures:

The combination of matt and shiny yarns provide a beautiful textural contrast in this collection, heightened by the matching and contrasting mingled colors.

The aesthetic effect of the different yarns and mingled colors is very striking, making the range quite different from anything else available.

.....

PRINCESS II

the perfect match:

Princess II is the perfect solid color accompaniment to the Marquise Collection as it shares a number of product styles and also features a combination of matt and shiny yarns.

The Marquise and Princess II Collections are available in one combined sample folder providing a great cross section of styles and colors.
